Project 'TRU'
Sinter pallet car wheels

Main bearings:

T3 Segment - Technological bearing

RKB
BEARING INDUSTRIES

Track roller units and single-row taper roller bearings paired back-to-back for sinter machine pallet car wheels

Up to 140 mm inner diameter and 250 mm outer diameter

Reinforced execution for shock loads

High load carrying capacity achieved through full complement design

Bainite Treatment for outer rings (HB2)

EP grease with excellent behavior at high temperatures and pressures
